INDUSTRY SAFETY TRAINING

ACCIDENT PROCEDURES

ACCIDENT LAWS • DRUG AND ALCOHOL TESTING • SAFETY

This course is designed to teach the methods for handling an accident scene which may help to protect you from unnecessary damage, loss of life, fines and bad reputation against your company

Accidents are unfortunate, but they are a very real possibility. Ensure that your drivers and others on the road are safe. This program covers:

- Knowledge about what the law requires
- Understanding warning -device placement
- Steps in evaluating the accident
- Skills in communication
- Being able to properly record and assess
- Hazmat – when you have to call

This 5-hour course includes:

- Securing an accident scene
- Types of fires and using extinguishers
- On-scene information
- Injuries and calling for help
- Drug and alcohol testing information
- What the law requires, and much more
