4. LOAN DEBT INFORMATION

Please note that you must repay money that you borrow as student loans to pay for this program, including interest. You must repay any portion of the money you borrow to pay for the program, even if you fail to complete or drop out of the program. Failure to repay student loans is likely to have a serious negative effect on your credit, future earnings, and your ability to obtain future student loans.

5. LOAN NONPAYMENT STATISTICS

Each year, the U.S. Department of Education (USDOE) issues an official notice regarding the percentage of former NETTTS students that have defaulted on their Federal student loans. The most recent official three-year notification was issued in September of 2018 and was for USDOE fiscal year 2015. The data used to calculate default and repayment rates are tracked via the USDOE National Student Loan Data System (NSLDS). Using this data, the following table discloses the most recent rates for former students of the combined Massachusetts & Rhode Island NETTTS campuses listed under Federal ID#025844.

FY2015 Federal Loan Non Repayment Rates for NETTTS – No Andover & Pawtucket ID#025844			
Default Rate	Forbearance Rate	Deferment Rate	Federal Non-Repayment Rate
12.1%	6.4%	.91%	19.4%

Default Rate = Percentage of borrowers that failed to repay their student loans.

Deferment/Forbearance Rate = Percentage of borrowers that received an authorized delay of payment on their student loan.

Total Rate = Default Rate + Forbearance Rate + Deferment Rate

NETTTS also offers a payment plan to students that may need extra time to pay a remaining balance due after receipt of any financial aid. There is no interest associated with these payment plans. For 2015, 8.9% of the students on payment plans failed to pay all or a portion of their balance back to the school. This percentage is determined by calculating the number of students who fail to make a payment for over 90 days. Contrary to this, 91.1% of the students made their payments in a timely manner.
